# Evacuation Recording Procedures

- 1) Ensure that all premises are reported on the Evacuation Log.
- 2) If directed by Command, the evacuation team will use one 2-3 foot long ribbon of colour-coded, weather-resistant tape to indicate the evacuation status of each premise.
- 3) Tie the appropriate ribbon around the door knob most visible to the street. Should a door not be visible from the street, attach tape to the side of the house that is visible. Should the house not be visible from the street, place the ribbon at the entrance to the driveway (e.g. around mailbox or tree).

Use the following colour-coded, labelled ribbons:

<b>Colour – Meaning</b>	<b>Actions</b>
<b>Blue – Not home</b>	Needs a second visit if safe to do so. Tape the Evacuation Order to the door of the property with a note explaining the meaning of the blue tape, and instruction to call phone number on the Order for more information or instruction.
<b>Pink - Notified</b>	Ready to evacuate when ordered. Provide occupant with yellow ribbon to exchange with pink ribbon when leaving.
<b>Yellow - Evacuated</b>	Explain to residents to replace pink ribbon with yellow ribbon when they leave the premises.
<b>Orange - Refused</b>	Advise that responders will not be put at risk to rescue them. Note address, report and record the refusal. Explain the purpose of the Orange tape: so First Responders will not visit property again for evacuation notification, or be alarmed at occupied residence during patrols. Provide Order and highlight EOC contact information.
<b>Red – Needs Assistance</b>	Try to delegate assistance to neighbours. Use situational discretion for whether or not to directly assist. Explain the meaning of the tape: it is a flag for First Responders to come back to provide assistance in evacuating. Note status and actions taken and continue with evacuation notification.

**Evacuation Notification is the Priority – Keep Moving!**
